

C7 Inflation/ Deflation Valve

Registered Design

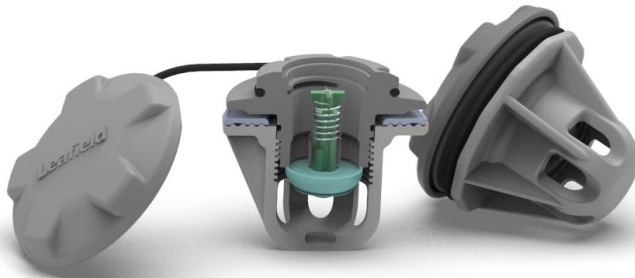

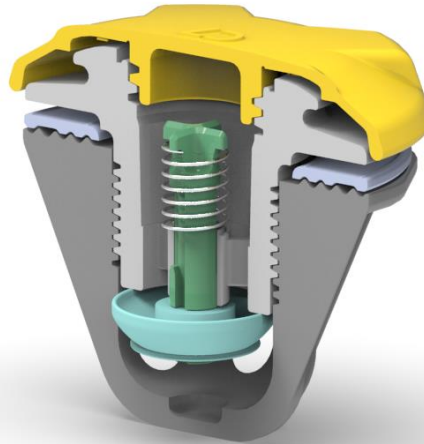

The C7 inflation and deflation valve is designed for use in demanding applications such as Military and Commercial RIBs, River Rafts and Inflatable Boats.

C7 Key attributes and benefits:

- Smooth, low profile.
- Extremely rugged and reliable.
- 100% leak tested during production.
- Quality materials to ensure long life.
- Smooth external profile to protect fabric when deflated.

- Cap acts as a secondary seal.
- Core can be removed from the outside of the tube.
- Available in grey or black.
- Caps are available in grey, black, white or yellow.
- Company logo can be placed on the cap, subject to a minimum quantity and tooling charge.
